

Working together so you can access the support you need, when and where you need it.

The Regional Partnership Board (RPB) is made up of Cardiff Council, Vale of Glamorgan Council, Cardiff & Vale University Health Board, Welsh Ambulance Services NHS Trust, Housing, Third and Independent sectors and carer representatives.

Our aim is to improve the health and well-being of the population and improve how health and care services are delivered by making sure people get the right support, at the right time, in the right place.

We are bringing together a series of services to support you to age well. This is called **@Home** as together they bring support as close to your home as possible.

Over the next 5 to 10 years, you will see improvements to services in our region which include:

- New health and care facilities in the heart of communities across the region, reducing your need to travel to hospital.
- Information, advice and guidance that is easy to access and means you can take control of your care.
- Services to help you stay well.
- Support when you are in hospital to return home as soon as possible.

If you'd like to know more about how we're working to transform health and care services for older people please visit: www.cavrpb.org or scan the QR code.
